DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Akira (JP 56107753).
Akira (see abstract and constitution) discloses a device comprising: a motor having a frame (5) of which surface is conductive; a grounding terminal (9) disposed at a place facing the frame; and an elastic member made of conductive resin (11 and 13) and disposed between the frame and said grounding terminal.

Art Unit: 2834

Allowable Subject Matter

4. The following is an examiner's statement of reasons for allowance: claims 2, 5, 7, 10, 13, 16, 19, and 22 have been allowed.

The prior art alone and in combination fails to disclose a specific arrangement of a device comprising: a motor having a frame of which surface is conductive and a motor terminal shaping in a leaf spring; a feeding terminal for powering said motor and disposed at a place facing the motor terminal; a grounding terminal disposed at a place facing the frame; a first elastic member made of insulating resin and disposed for urging the motor terminal to said feeding terminal; and a second elastic member made of conductive resin and disposed between the frame and said grounding terminal.

Election/Restriction

5. Applicant's election with traverse of claims 1, 2, 5, 7, 10, 13, 16, 19, and 22 of species A in Paper No. 8 is acknowledged. The traversal is on the ground(s) that claim 1 is genetic to species A, B, and C. This is not found persuasive because species A-C are a separate status even though the claim 1 is genetic to all the species, but, the restriction is still required to elect a single species for prosecuting the application.

The requirement is still deemed proper and is therefore made FINAL.
